UK MAP OF ANDREW PAGE BRANCHES
When the late Derek Dale first opened his garage in 1959, he probably never thought that 56 years later his Grandsons James and Nick would still be running and expanding the family business. The well known and respected Vauxhall specialist and MOT centre, based in York, have been an Andrew Page customer since 1984.

When the decision was made to move to new premises in late 2014, James, Nick and their father Ian, decided it was also time to replace their old MOT bay and invest in a brand new ATL and lifts.

“Having dealt with Andrew Page for over 30 years for both parts and equipment, they were the obvious choice for our new bay” explained James, “We contacted our local Representative, Andy Hammond, who arranged for AP Tech and Tecalemit to visit the site and put forward a proposal that suited our needs. Once agreed Tecalemit quickly provided the drawings required for VOSA and worked with our builder to dig the recesses. We were soon ready to proceed”.

Rob Croft, Manager of the Andrew Page equipment division commented “I have known DG Dale since starting in the trade in 1987, watching the business grow to what it is now”, having been given the opportunity to supply the new equipment and assist with this project is a real pleasure. I wish Ian, James and Nick every success for the future and thank them for their continued support”.

A long standing relationship
SAY HELLO TO YOUR NEW BEST FRIEND!

ALL YOUR GARAGE ESSENTIALS IN ONE EASY TO USE CATALOGUE

FEATURES & BENEFITS

- Over 7,000 lines available to order for next day delivery
- Includes every “must-have” workshop consumable
- Exposure to a full and comprehensive range of general workshop consumables purchased by every workshop without exception
- Access to harder to source range products (e.g. Over 2,000 fasteners)
- 14 Easy to read catalogue sections including chemicals, fasteners, PPE and signage
- Simple and easy to use catalogue for single source of consumables
- Control workshop spend - supplier reduction
- Competitive pricing across the range
- Numerous added value products supplied and presented in high quality packs with easy to read descriptions
- Offers both branded and lower-cost alternative ranges – Dormer drills/White label alternative, Deb/OnHand, Jubilee/ACE, Loctite/FIXT
- Quality range supported by full product warranty
- Massive range of assortments - lower stock holding, wider coverage, organised storage

CONTACT YOUR LOCAL BRANCH TODAY!

To guarantee next working day delivery orders must be placed by 1pm.
**OMEGA**

**2T Low Entry Long Reach**
- Lifting capacity 2 Ton
- Lifting range 80mm - 375mm
- PU Wheels to protect floor
- Magic Lift to save you time
- Self bleeding system & overload protection
- 2 Year warranty
  Part No: 21027-PU

**3.2 Ton Heavy Duty Workshop Jack**
- Min H 145mm
- Max H 504mm
- Magic Lift system
- Self bleeding system
- Overload bypass system
- PU Wheels
- Wide wheel base for extra stability
- Foam handle protects vehicle body
- 2 Year warranty
  Part No: 29035-PU

**9pc Wobble Extension Set**
- Forged Chrome Vanadium steel shafts, heat treated with mirror finish
- Deep knurling on shafts allows extra grip for oily hands when spinning off fixings
- Spring-ball socket retainers
  Sizes 1/4” Dr 50,100,230mm
  Sizes 3/8” Dr 75,150,230mm
  Sizes 1/2” Dr 50, 125, 250mm
  Part No: M1209

**6pc Adapter Set**
- All adaptors are manufactured from the very highest quality Chrome Molybdenum steel
- Covers sizes 1/4 to 3/4”
  Part No: M1234

**Ratchet Hose Clamp Pliers**
The new Omega Hose clamp pliers make installing and removing flat type hose clamps in hard to reach areas much easier.

The New Omega Ratchet mechanism allows the clamp to be securely held open to fit or remove in any position

**Flat Type**
- OUR SPECIAL OFFER! £16.99
  Part No: M9438

*Recommended for use with Universal Press Support Block - 08770000

**Fuel Extractor / Retriever**

- Retrieve fuel following a filling error, removal of tank sender unit, changing or checking the fuel gauge, rinsing the fuel tank during body work etc
- Stainless steel mobile 45-litre tank
- Cleanly draws up or pushes out fuel due to a venturi system
- Includes 2 anti-static ground cables, overflow line and 3 fuel probes
- Emptying via the tank filler neck or fuel lines

2m Long fuel probe also available (366005-13) **£24.95**

Part No: 36600500

**Pneumatic Coil Spring Compressor Workstation, Extra Heavy Duty Model**

Universal piece of equipment for assembling and disassembling struts and coil springs

- Suitable for cars, 4WD’s and light commercials that use McPherson strut type suspension systems
- Front and side spring clamps designed for fast changeover using unique brackets system
- Fitted with Extra Heavy Duty Pneumatic Cylinder - Compression force (at 10 bar) = 2452 kg
- Ideal for Extra Heavy Duty applications i.e. SUV’s, 4WD’s etc where full spring compression is required
- Double-depth front plate for use on extra-long strut assemblies
- Safety locking valves system – locks safety cage and prevents usage with cage open

Part No: 385800SP

**Adaptor Set for 36600500 Fuel Extractor / Retriever**

- Set of fittings to allow 36600500 (left) to connect in line, before the injection pump (on most fuel systems) for safe emptying of fuel

Part No: 36600700

**Jaw Holder**

- For use with 3658 and 3868 workstation brackets
- Includes 3 x hanging hooks and 4 x slots for brackets
- Provides a tidy and safe storage solution

Part No: 38580200

**Coil Spring Clamp**

- Tool to secure coil spring into lower bracket for use with the SP range of suspension workstations
- Designed to hold the coil spring still during initial compression and restrict twisting through the bracket

Part No: 38580400

UNIVERSAL AIR TOOLS

AIRCAT® Killer Torque 1/2” Impact Super-Clutch Twin Hammer
• Most powerful 1/2” impact in its class
• Hard hitting twin hammer mechanism
• 1,295 (ft-lb) loosening torque
• Durable composite housing
• Patented ergonomically designed handle
• Patented easy operation flip lever forward and reverse
Part No: AC1150
£219.95

AIRCAT® 1/2” Brushed Aluminum Impact Wrench
• Refined design twin hammer increases blow frequency and blow efficiency • 800 ft-lb Max. Torque
• Very Fast Torque Development 9,000 RPM Free Speed
• Provided Fast Run-down
• Ergonomically designed grip provides maximum operating comfort
• Six position power management switch in back cap provides ultimate control
• Great balance & handling comfort
• Brushed aluminum housing finish
Part No: AC1450
£119.99

AIRCAT® 1/2” Stubby Impact Wrench
• Low weight aluminum alloy housing
• Steel front cap extends tool life and avoids misalignment of hammer-reducing hammer and end plate wear
• Reliable Jumbo hammer mechanism delivers maximum power, while increasing reliability
• Patented “silencing technology” reduces the noise level to 89 dBA
• The grip has been ergonomically designed to perfectly fit the hand providing unmatched comfort for the user
• Trigger mounted combined reverse & power management switch provides ultimate control and one-hand operation
Part No: AC1955-TH
£109.95

AIRCAT® 3” Reversible Cut-off Tool
• Adjusting rotational direction increases cutting wheel life and allows operator to change the direction of sparks
• Reverse switch located in grip for easy change of direction
• Cuts 3/8” rolled steel or 18 gauge steel sheet
• Speed regulator located under throttle lever adds control
• Impact resistant, composite housing
• Stall resistant ½ HP motor
• Extra heavy duty dual spindle bearings for added reliability Exhaust Weight
Part No: AC6520
£69.95

WILKINSON STAR

EUROSTAR 200
Excellent weld performance
• Easy to use
• Euro torch connection
• Suitable for steel, stainless, aluminium and MIG brazing
• Includes 3mtr Euro connect torch, gas regulator
• Current range 30-200A

Part No: ZXEURO 200
ONLY £495.00

EUROSTAR 318
• Easy to use
• 10 Voltage settings
• High power 4 roll drive
• Suitable for steel, stainless, aluminium
• Torch trigger latching, spot timer, burn back control
• Includes 3mtr Euro connect torch, gas regulator
• Current range 30-340A

Part No: ZXEURO 318
ONLY £895.00

STARPARTS AUTO DARKENING WELDING HELMETS
• Delay – Variable 0.1 to 0.8 secs
• Lightweight nylon shell
• Large viewing area
• 2 Arc sensors

**VAG GROUP DIESEL ENGINE CAMSHAFT INSTALLER KIT (1.2/1.6/2.0 C-R)**

VAG 1.2, 1.6 & 2.0TDi common rail twin camshaft diesel engines utilise a conventional belt drive system between the crankshaft and one of the camshafts. The second camshaft is then driven through interconnecting drive gears at the rear of the camshafts, one of which is a spring loaded split gear. The split gear maintains a positive connection between the drive gears at all times, eliminating lash and reducing vibration between the camshafts.

The camshafts are retained in place by an aluminium frame into which the bearing surfaces are machined. It is critical that the frame and camshafts are fitted and aligned correctly to prevent damage and premature failure of the bearing surface or camshafts.

The AST5160 kit contains the special tools required to set the timing position and reinstall the camshafts correctly.

(Note: This Kit is to be used in conjunction with AST4840 Diesel engine setting/locking kit.)

**ALBA**

**HEAVY DUTY SUSPENSION WORKSTATION KIT**

- Auto levelling upper arms: works on conical & misaligned springs
- Cylinder made from light alloy & nylon resin with fiberglass to avoid corrosion & oxidation
- Foot-pedal works only when the safety valve is closed
- Supplied with small & large jaws & strut vice
- Working pressure: Min 6 bar - Max 10 bar
- Cylinder stroke: 330mm
- Compression force: 1960Kg @ 10 BAR
- Ideal for working on conical, side load & heavy duty springs

**KIT INCLUDES**

- **SHOCK ABSORBER MASTER TOOL SET**
  - Part No: ALB30956
  - **£1495.00**
  - 5 Year lease from £7.94pw
  - Part No: ALB40170KIT2

- **MERCEDES SET**
  - Part No: ALB40175
  - Jaws for C & E Class
  - **£1575.00**
  - 5 Year lease from £8.36pw
  - Part No: ALB40180KIT1

**OUR SPECIAL OFFER!**

**£599.95**

Part No: AST5160

AST4840 ALSO COVERS PUMPE DUSE (PD) ENGINES

**ENGINE SETTING /LOCKING KIT FOC**

Usually £113.95

*Note: This Kit is to be used in conjunction with AST4840 Diesel engine setting/locking kit.*
MINI AIR IMPACT WRENCH 1/2”D
- 9000 rpm.
- 450ft lbs (610Nm) Torque. Maximum 90psi (6.3 BAR) with 3/8” air hose.
- Compact design can be used in confined areas where it is impossible to use a standard wrench.
- Weight 1.3kgs, 122mm long.
- Sound pressure EN ISO 15744 94.2db, vibration level 9.69 m/s².

BRAKE CALIPER REWIND TOOL KIT 18PC
- 15 Special adaptors and reaction plate
- Left and right hand threaded screw and T-bar
- Provided in a blow mould case and complete with instructions
- Fixed 2 pin drive
- Application list

HEAT INDUCTOR (UK PLUG)
- Maximum output 1500w
- Supplied with one of each 22mm coil/10mm coil/universal rope coil
- Induction technology flameless heat ideal for track rod ends exhausts and for any seized nuts and bolts
- For body shop use when used with the mini pad set (available separately Part No 5840)
- British made. Full range of coils available: 1284, 1285, 1286, 1287, 1288, 1289, 1290, 1291, 1292, 1293, 1294, 1295, 1296, 1297, 1298, 1299

MINI JUMP START POWER PACK
- Applications: Emergency starter for cars, vans, boats, forklifts, motorcycles. Able to charge vehicles repeatedly on a single charge. Emergency power for lighting etc. Two USB ports for charging mobile phones etc.
- Compact size: 170mm x 180mm x 155mm high, weight 5 kilos
- Range for jump starting 12v vehicles - up to 6.5 litre petrol and 2.5 litre to 3 litre diesel. Instant 1200amp Max current
- Fitted with two LEDs with flashing function, patented voltmeter for battery testing, voltage probes for testing the battery before jump starting.
- Folding carrying handles

COIL SPRING COMPRESSOR 1600KG
- Floor mounted Macpherson Strut and coil over spring compressor
- Suitable for spring sizes 80mm < 310mm maximum
- Fitted safety cage with safety valve - restricts use when in open position
- Suitable for both left and right hand wound springs
- Adjustable spring clamps can be used directly on the spring or on top and bottom mounts

INVERTER MIG WELDER
- Comfortable, ergonomic torch offering professional control and performance
- Inverter design allows high-current welding from 240v single phase supply, light weight and conveniently sized, great portability
- Welds steel or alloy — convenient internal 100mm wire spools are available in steel, aluminium or MIG braze-welding (not supplied)
- Easy adjustment of voltage and wire feed or use multi-function welding programmes for repeat work, material type, thickness, etc. Supplied with 3pin plug, 230v/50-60Hz
- Impressive duty-cycles: 100% @ 140amps - 40% @ 190amps (max). Made in Italy

Sight tube level gauge

**ONLY £199.99**

Part No: JODE090E

Designed to drain waste oil by either gravity or suction from engines, gear boxes, and differentials of all vehicles. The emptying of the drained oil inside the reservoir is air operated. Extracts oil from any vehicle using the venturi extraction system. Includes six suction probes (metal and flexible) equipped with quick couplers for fluid extraction. Self-evacuating feature makes emptying clean and simple.
ENTRY LEVEL AIR CONDITIONING MACHINES

KONFORT 710R
To keep up with the demand for recharge stations for the older refrigerant, we have the New KONFORT 710R, designed to satisfy the needs of garages who want an “entry level” system only for R134a which, after all, is still the most common refrigerant in vehicle A/C systems. Although this is an entry level model the KONFORT 710R provides, as standard, all the essential functions that have established the KONFORT 700 Series as the leading recharge stations on the market. Features include automatic leak detection, electronic refrigerant weighing, automatic timed oil and UV tracer injection and high efficiency refrigerant recovery (over 95%).

MAIN FEATURES

- R134a Compatible
- High visibility, 4x20 character, blue backlit LCD screen
- Management of database and service records by SD card
- 10KG Tank
- Double stage vacuum pump
- Charging accuracy +/- 15 g
- High efficiency refrigerant recovery (over 95%)
- Automatic oil injection (timed function)
- 2 Manual recharging line control valves
- Functioning modes: Database, Personalised service, My database
- Automatic compensation for length of recharging lines
- Automatic maintenance alarm
- Simplified maintenance
- Automatic management of non-condensable product

OPTIONAL EXTRAS

- Printer
- Machine cover
- Vehicle flushing kit

MACHINE ONLY £1895 EXCLUDING GAS & ANCILLARIES

ALL PRICES ARE MACHINE ONLY SEE BELOW FOR ANCILLARY PACKAGES

Konfort 720R Bi-Gas
The KONFORT 720R is an entry level unit for single gas applications. It features a single colour display, with manual control of hoses, oil and UV management.

Konfort 760R
The KONFORT 760R has all the same features as the 780R, but is designed as a single refrigerant unit. A retrofit kit to change refrigerant type to HFO1234YF in the future is available. This does not update the unit to a bi-gas as with the Konfort 780.

The 780R, 760R and 760BUS, are all fitted with transport locks to protect the measuring system during transportation. In addition, a range of accessories can be purchased for refrigerant flushing, VDC* control diagnosis, system performance checks and gas analysis.

*Variable Displacement Compressor

Introducing Spin air conditioning equipment

**CLEVER ADVANCE BASIC**
Our entry model R134A air conditioning station, the Clever Advance Basic comes with some big machine features. With a 12.5Kg heated refrigerant tank, 72ltr/min vacuum pump and comprehensive vehicle database including car, truck and agricultural equipment. Software update via USB and facility to include up to 100 personal database items. Built in printer included.

**OK CLIMA ADVANCE PLUS**
An automatic air conditioning station for cars, vans and trucks with R134a. OK Clima Advance Plus boasts a 22Kg heated refrigerant tank, 100ltr/min vacuum pump, built in printer and three oil bottles, for waste oil, new oil, dye or new oil for hybrid vehicles. The ability to transfer data to a personal computer and large class 1 80mm gauges make the OK Clima Advance Plus THE choice for professional air con service.

**BREEZE TOUCH BIGAS**
The new Spin Breeze model is designed to operate with both R134a and HFO1234yf refrigerants. No risk of internal contamination between refrigerants due to the machine having 2 evaporators, 2 compressors, 2 condensers, 2 filters and 2 storage tanks. Automatic internal cleaning takes place at each change of refrigerant.

The Breeze by Spin is equipped with a 100ltr/min vacuum pump, 2 tanks of 12.5kg, compressor of 400gr/min and pairs of couplings for R134a and HFO1234yf, and the printer is also included. The unit is has a 6” x 5” TFT colour screen and can operate both on standard installations and hybrid with oil scale and specific software.

All payments shown are subject to businesses trading in excess of 3 years, status and Vat. New start businesses may require a higher rate. The tax relief shown is for illustration purposes only. For further information regarding leasing options please contact Tony Devenney on 01675 469 208. Andrew Page are regulated by the Financial Conduct Authority (FCA) reference number 496906.
TPS

The TPS handheld unit communicates directly with the Tyre valve, providing the operator with information relating to valve identification, pressure, temperature and battery status. The TPS can also transfer the ID data into many of the universal sensors from the original valve, avoiding the need for ECU reprogramming. The TPS can also communicate with the IDC4 diagnostic software for Axone 4 and PC where ECU communication is required to reset the information.

Part No: D10840

OUR SPECIAL OFFER! £360

TPS KEY

For TEXA customers who purchase or already own an Axone 4 or Axone 4 Mini, the addition of the USB TPS key allows these units to perform all the TPMS functions contained within the IDC4 software. Customers simply need to download the free TPMS APP and additional menus become available to guide the users through the TPMS procedures.

Part No: D10940

OUR SPECIAL OFFER! £280

AXONE S TPS (AXS-TPS)

This handheld unit provides all the functions of the TPS handheld tool, and is supplied with a Nano-S diagnostic interface, which connects to the Tyre Pressure monitoring system’s ECU via the EOBD socket. This allows all the required functions for TPMS to be managed from a single tool. An added advantage for this unit is its ability to be upgraded to provide all the diagnostic capabilities within the IDC4 software, making it a comprehensive Diagnostic solution for any workshop.

Part No: AXS-TPS

OUR SPECIAL OFFER! £1150

LEASE FROM £6.10 PER WEEK

AXONE S CAR AND LCV PACKAGE (AXS-CAR)

The Axone S Diagnostic package from TEXA is the latest handheld solution at an affordable price. This unit, in conjunction with the Navigator Nano-S wireless interface, brings all the Diagnostic functionality for Car and light commercial applications from the IDC4 software, combined with the speed and simplicity of an Android based platform. The package includes the Axone S display, the Nano-S interface, protective cover and storage case, as well as software updates for the 1st year.

AUTODIAGNOS VCI
SPEAKS YOUR LANGUAGE WITH INTEGRATED GUIDED DIAGNOSTICS

Benefits & Functions:
- Identifies control devices automatically
- Reads and deletes fault code memory
- Extensive live data and measured values
- Component activation
- Covers more than 40 vehicle manufacturers
- Innovative, wireless vehicle connection to any compatible Windows PC
- Autodiagnos DSI — unbeatable software
  - Guided troubleshooting – HaynesPro VESA
  - Mechanical information
  - Wiring diagrams
  - Parts catalogues – avoids you from ordering the wrong parts
  - Recall data - Haynes Pro SmartFix
  - Single click access to detailed information only known to the vehicle manufacturer

Offer includes:
- 1 Year software subscription
- 3 Year Warranty

Options:
- Update Plus – Extended software updates

VDO TPMS PRO
THE FASTEST & MOST ADVANCED VDO TPMS TOOL YET!
Equipped with the latest scanning technology, OE and universal TPMS sensors are rapidly activated, displayed and where necessary, re-coded.

Benefits & Features:
- Instantly activates OEM and universal TPMS sensors
- Displays all important sensor information
- Innovative, high resolution 4.3” colour screen
- Programs all popular universal TPMS sensors
  - Alligator sens.it
  - HUG IntellSens
  - Schrader EZ-Sensor
  - T-Pro
- Relearns new sensor ID to the ECU via OBDII link
- Deletes TPMS error codes
- Extensive database – spare part numbers & torques
- Covers all vehicle manufacturers worldwide
- Transfers data to PC via USB or WiFi

Offer includes:
- 1 Year software subscription
- 3 Year Warranty

Options:
- Update Plus – Extended software updates
- TPMS Pro Print: equipped with a docking station and infrared printer

VDO — a brand of the Continental Corporation

3 Year Warranty on all VDO Diagnostics
The X431 Pro III has been designed to connect vehicles and workshops, using wireless and Bluetooth connectivity. A built-in social network service enables users to connect to a community for help with diagnosis, while remote diagnosis is possible with a GoLo option. Users also have access to a car database and repair tips, allowing for faster and more efficient performance.

OTHER FEATURES OF THE PRO 3 INCLUDE:
- Full system diagnosis
- Data stream storage and re-display
- Coding, reset and programming functions
- Online technical support and advice
- Real-time diagnosis for GoLo users
- Special functions for specific manufacturers
- X431 Pro III technical specifications:
  - 10.1 Inch, 1280x800 resolution touch screen
  - Quad Core processor running at 1.2Ghz.
  - 1 GB Of RAM
  - 8 GB On board storage.
  - 16 Core CPU
  - 3.7v Ultra-long life battery 6600 mAh.
  - 0.3 Megapixel front camera, 3.2 Megapixel rear camera
- Android 4.0 OS

The Launch X431 Pro III has been designed to connect vehicles and workshops, using wireless and Bluetooth connectivity. A built-in social network service enables users to connect to a community for help with diagnosis, while remote diagnosis is possible with a GoLo option. Users also have access to a car database and repair tips, allowing for faster and more efficient performance.

- Android 4.0 OS

The X431 EUROPAD II is the latest Android based diagnostic tool, which boasts a robust waterproof design with a 10.1 inch ultra-high resolution IPS touch screen. The EUROPAD II uses the same award winning software as previous Launch X431 scan tools, including vast multi manufacturer vehicle coverage, powerful special functions, accurate and ultra-fast live data and graphing, along with module coding capabilities.

KEY FEATURES:
- Launch next generation software suite: OE-Level access to Asian, European and domestic applications for module coding, resets, relearns & bi-directional capabilities
- VIN Recognition & auto-ID available on vehicle systems and modules
- Real-time remote telematic diagnosis using GOLO
- Customer management software linking to the LAUNCH online user community
- Online fault code search & manufacturer possible causes & solution help files
- Built-in vehicle maintenance and repair database
- Easy one-click updates over Wi-Fi
- Class-1 Bluetooth 2.1 connector for optimum wireless connectivity
- 10.1 High resolution IPS capacitive touch screen
- Optional thermal Wi-Fi printer available & office Wi-Fi printer connectivity
- One-year software subscription included with no lock out period
- Pre2000 OBD1 & historic cables and connectors
- High resolution camera with still and video capabilities

The CReader Pro CRP129 is the most up-to-date vehicle fault diagnosis tool in Launch’s line of handheld diagnostic tools. Don’t let its size mislead you, the CReader Pro is a state-of-the-art tool and with innovative new designs in both its hardware and software it is one of the most reliable and accessible diagnosis tools on the market today.

KEY FEATURES:
- MIL indicator
- Multiple car models (Over 40 prevalent models from Asia, America & Europe)
- Record, save and playback up to 8 hours of live data
- I/M Readiness test
- Enhanced data stream for ABS, SRS, transmission & engine.
- Malfunction lamp status
- Read vehicle information
- O2 (Lambda) sensor test
- Auto-vehicle ID, auto module search & ultra-fast protocol ID
- EVAP System test
- View live diagnostic data in graph or data format
- View multiple data streams at the same time
- View freeze frame data
- Read current, pending and permanent DTC’s
- Clear DTC’s
- Support DTCs help, data stream wave display
- Free internet updates
- Enhanced help function
- Print data via PC
EMISSIONS ANALYSIS

Choose an emissions analyser that is powerful, accurate and adaptable.

All Bosch emissions analysers are fully compliant for use in all MOT testing categories. From the processor based BEA350, to the fully adaptable and upgradeable PC based BEA850.

BEA850 Emissions Analyser - PC Based
Combined petrol and diesel emissions test station, PC based with large 19" TFT monitor, includes EOBD kit for RPM and temperature pickup.
Includes:
1 Year service and calibration package
2 Year warranty
(VOSA Updates not included)

BEA350 Emissions Analyser - Processor Based
Processor based combined emissions tester, compact and robust design, includes EOBD kit for RPM and temperature pickup.
Includes:
1 Year service and calibration package
2 Year warranty
(VOSA Updates not included)

The Fortron Injector Max Machine provides a simple and effective method of cleaning both petrol and diesel fuel systems without the removal of injectors from the vehicle.

**FEATURES & BENEFITS**
- Air operated machine
- Typical 30 minute service cycle time
- Portable & robust industrial design
- Multi functional machine - Injector, throttle body and combustion (upper cylinder area) chamber cleaning
- Comprehensive fuel system adaptor set supplied with machine
- Suitable for high pressure petrol fuel delivery systems and common rail or direct diesel systems
- Vacuum gauge readings for visual and measurable improvements on petrol engine vacuum systems
- Full back up training and support
- New technology Injector Max RTG (premix) fluids are suitable for older vehicles and latest style common rail diesel engines - also compatible with recognised bio-diesels
- Proven results and great profit opportunity for service centres

THE BEST MOBILE TECH
THE BEST DIAGNOSTICS

5 x Diagnostics Mobile Demonstration Vehicles

Carrying a wide range of the latest Diagnostics, Emissions and Air Conditioning Units, our AP Tech Demonstration Vehicles are on hand to ensure Andrew Page offer our customers the best possible service and technical support in the industry. Rather than employing sales people and then providing basic training, we have invested heavily in fully qualified personnel straight from the industry, this ensures we offer unbiased advice and information on the best and most suitable equipment, rather than selling based on the best commission or easiest unit to sell. All of our Technical Representatives are Fully Qualified Diagnostic or Master Technicians and all have come from a workshop background, simply put – they understand modern day workshops and the pressures and obstacles faced by today’s Technicians.

Whether you need an initial demonstration and advice on the most suitable unit to buy, training on your new unit or aftersales support once you have made your purchase, the Andrew Page Technical Team is here to support your equipment, ‘cradle to grave.’ Rather than dropping the equipment off with your daily parts order, all of our premium level diagnostic, aircon and emissions equipment is delivered by one of the technical team, where it is then installed, checked and full training is given, on-site, on the day!

We also offer full IMI and DEFRA approved F-Gas training for air conditioning, again on-site using the same fully qualified Technicians.
**4 x Mobile Service Engineers**

As well as providing training and support upon installation, we also offer a full service, repair and calibration facility to ensure you get the maximum return on your investment and many years of trouble free service. Rather than relying on a third party company, we took the decision early to employ our own Engineers as we wanted to have full control of the service network. As a motor factor we know how important it is to get the right parts to our customers in the shortest possible time, this mentality is also applied to our equipment offer as we understand that a quick response and efficient service is hugely important to any garage.

We offer on-site service and calibration for Bosch, Texa and Spin air conditioning as well as Bosch and Texa emissions and diagnostics. In the case of a breakdown we offer a 48 hour callout, however most urgent callouts, such as emissions equipment, are attended within 24 hours, if your unit cannot be repaired on the day of the first visit, we can usually supply a loan unit to ensure minimal interruption to testing. We also offer a return to base service facility for smaller units such as diagnostics or major repairs, our Service Centres are located in Leeds and Farnborough and are fully approved and accredited by Bosch, Texa and Spin.

With all of the above services available from Andrew Page, the only question you really need to ask is “Which other Motor Factor offers this level of investment and commitment to my business?”

HOFMANN

TABLET DRIVEN ATL

HOFMANN has now introduced the modernised, wirelessly-operated and tablet-enabled ATL – an industry leading, DVSA-approved automated test lane system for one person operated MOT testing for class IV and VII with the optional class I, II, III and class V ability.

The tablet can be used to enter the results for the individual tests on the DVSA form as well as it being the driver for the brake and emissions tests. Using the tablet means you can easily see the live readings without having to leave the vehicle. Your results can then be wirelessly sent to a printer that can be located anywhere in your garage.

FEATURES

- Dual revenue 5.2m and 5.7m lift with integrated rear slip plates
- Wireless torch and shaker plate control
- Unique cable and pulley alignment
- Hose and wire tidier
- Unique wireless brake tester with smooth grip rollers - the only rollers with a TEN-year surface warranty
- Brake roller cover plates
- Modular wireless emissions with industry leading water control system
- Twin laser headlight beam setter
- Tablet controlled brake-tester and emissions tester, on-line DVSA connection through the tablet
- FREE Wireless upgrade – tablet, software and router (separate broadband connection must be available and is not included as part of the package)

GEOGAS 3000

The HOFMANN geogas 3000 gas and smoke emissions tester provides the modern workshop with an expandable platform that can grow and develop with your business.

- Bluetooth connectivity as standard allows for cable-free work space
- Fast warm-up means the unit is ready for testing in a matter of seconds
- Can be upgraded to HOFMANN four-wheel alignment (optional extra)
- Large monitor and printer for display and storage of results
- Can be integrated into a HOFMANN brake tester
- Dedicated own UKAS-accredited service team
- Unique water trap feature ensures your unit keeps working
- Can be operated via the tablet device (as part of a standard ATL package) or be upgraded at a later date

Many of our customers have recognised that motorcycle MOT testing can be an invaluable addition to their revenue streams. We can provide anything from a paddock stand, to an upgrade to your existing ATL or even a full dedicated motorcycle test lane.

Please contact the AP-Tech team on 0845 602 3436 for all your Motorcycle requirements

**Universal Rear Wheel Stand with Rubber Supports**
- Lifts and stabilises any dual arm sports bike quickly and easily
- Fitted with width and angle adjustable rubber support pads
- Rubber supports mounted on heavy-duty box section for continuous professional use
- Bobbin Supports available as an optional extra - Model No. RPS1BS

**Adjustable Front Wheel Stand**
- Features width adjustment from 180 to 280mm, making it suitable for almost all sports bikes
- Design ensures rim and tyre protection at all times
- Once the bike is supported, allows easy removal and cleaning of front wheel
- Please note all front paddock stands need to be used in conjunction with a suitable rear stand to ensure bike stability

**Motorcycle Lift 365kg Capacity Hydraulic**
- All steel construction with foot operated, integral hydraulic pump and ram assembly
- Fitted with safety lock device to fix platform at three working heights of 760mm, 640mm and 500mm and to prevent accidental lowering.
- Suitable only for motorcycles with a centre stand
- Support platform fitted with full width loading ramp
- Base assembly fitted with transport wheels and lock-downs to prevent lift from moving during use
- Length 2215mm x Width 480mm

**Single Post Motorcycle Lift 450kg Capacity**
- Space saving design maximises the space in the garage or workshop
- 2 Locking positions for supporting the motorcycle for extended periods on the lift
- With this lift it is possible to remove both wheels, front forks, steering assembly, rear swing arm and suspension units as well as the engine
- Benefits from being portable so can be used anywhere on a hard level floor thus making this suitable for mobile motorcycle mechanics
- Ideal for use with the Sealey range of wheel chocks to assist supporting the motorcycle whilst adjusting the frame supports and securing to the lift

**Wheel alignment bars & cords**
Essential for checking the alignment of motorcycle front and rear wheels.
Kärcher’s new HD 5/11 P offers professional quality and performance in a truly portable package. Thanks to its compact dimensions, light weight, and built-in carry handle, the HD 5/11 P is incredibly easy to transport and convenient to store. Features soft-start system to protect internal components on start-up, Easy Press trigger gun with rotating lance, and high-grade hose and power cable.

**SPECIAL OFFER**

£37.99

Part No: 47773220
WHEEL ALIGNMENT FOR THE ORKNEY ISLES

When Kenny Garrioch in Sromness on the Orkney Isles decided to invest in computerised wheel alignment, he and his son James knew where to look first. They contacted Niall Farmer and obtained the very latest Megawisebuys. Kenny has built up his busy and popular garage over the years to include MOT testing and tyre fitting, always benefiting from the very best offers in Megawisebuys.

Kenny commented that he had researched the market carefully and because of his very scenic but remote location, needed a supplier of garage equipment he could trust and one that could provide not only delivery, but on-site training and good after sales support.

Andrew Page and Hofmann Megaplan were only too happy to help and we wish Kenny, James and Ingrid all the very best with their new exciting wheel alignment proposition.

YOU CAN CONTACT KENNY ON 01856 850 925

or visit him at Annadale, Stromness, Orkney Isles KW16 3HS

The World Famous Italian Chapel on the Orkney Isles

Kenny with his new aligner and the latest edition of Megawisebuys

Kenny looks after a vast variety of vehicles on the Island
## ULTIMATE TYRE EQUIPMENT

Designed for those garages and tyre shops where, quite simply, only the best will do. A traditional build quality and focus on being “future-proof” make these an excellent investment for those looking for reliability and performance long term.

### megaspin 420
- Super automatic 3D operation using Sonar
- World’s first balancer with ‘NO CHECKSPIN’ technology
- Easier 6 O’clock position for weight application

CASCOS VEHICLE LIFTS

Do you want a lift that lasts like your old one did?

Cascos have been manufacturing lifts in Spain since 1965.
In all that time, very little has changed about the way a Cascos is made, because Cascos have resisted the temptation to reduce costs by cutting corners. Essentially, a Cascos is the closest thing you will find to the lifts of the past that seemed to last forever!
To celebrate 50 Years, we are pleased to offer a model that we consider to be the most traditionally built and versatile lift on the market today. Just compare these features...

- Solid steel profiles for the columns offer up to 60% more strength than those made from folded sheet steel, allowing us to use a much slimmer column, thus reducing footprint of the lift and increasing working area between the columns.
- Rubber buffers on inside of column ensure safe door opening.
- Useful tool trays located in all 4 arms.
- Triple-stage arms maximise minimum and maximum capacity for pick-up points.
- Unique arm locks use a spindle rod rather than a typical cog-style, giving universal positioning for the pick-up points and longer life.
- Storage device for an impact gun and sockets.

C3.5XL ‘50 Series’ - Two post lift, with base, 3500kg capacity - £3,995 5 Year lease from £21.21pw
C3.5XL ‘50 Series SYNCHRO’ - Two post lift, baseless, 3500kg capacity - £4,295 5 Year lease from £22.81pw

OTHER MODELS AVAILABLE
C2.32 - Two post lift, with base, 3200kg capacity - £2,995 5 Year lease from £15.90pw
C2.32 SYNCHRO - Two post lift, baseless, 3200kg capacity - £3,295 5 Year lease from £17.50pw

Prices include delivery by two engineers on company-owned transport, and installation to a prepared site, plus free courtesy check within 3 months of installation.

Unbeatable ‘Alignment Bay’ Packages
We can offer a huge selection of lift and alignment options using the Cascos and Hofmann Megaplan range.
- One supplier installs the whole package, eliminating any compatibility issues.
- Industry leading alignment technology combined with one of the world’s longest serving lift manufacturers.
- Expert engineers see through whole installation from delivery to comprehensive on-site training.

EXAMPLE PRICES

LEASE FROM £14.30 PER WEEK
Part No: CML3000
The CCP800 Emissions Analyser is one of the very best around. It’s sturdy and robust, making it perfect to handle the harshest garage environment.

**THE MOT TESTERS FAVOURITE!**
- Complies to the latest DVSA regulations
- Tests vehicle classes I, II, III, IV, V and VII
- For petrol and diesel engines
- Automatic calibration on smoke head to ensure accuracy at all times

CCP800 includes:
- Battery tachometer
- Oil temperature probe
- 23" Flat screen colour monitor
- Mouse and keyboard with dust/grease protection
- A4 Printer
- All housed in a high quality roll-round cabinet

ATL packages include emissions analyser. Extended Care Packages include:
- Parts and labour breakdown
- Calibration
- DVSA MOT Data updates
